

Driver Risk Management Solutions

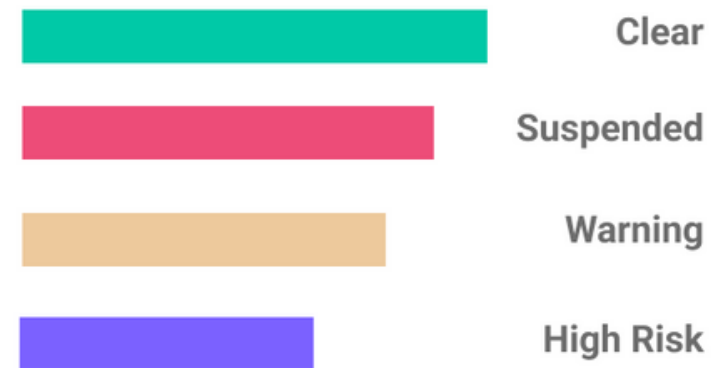

# Protect your company's bottom line with MVR Monitoring

**Zack, Waitman**

 Score: **SUSPENDED**

### Driver MVR Score

# Lessen your company risk with MVR Monitoring

Did you know that drivers with suspended licenses are **14 times more likely** to be in an accident? It only takes one employee to jeopardize the reputation of your company and expose you to risk.

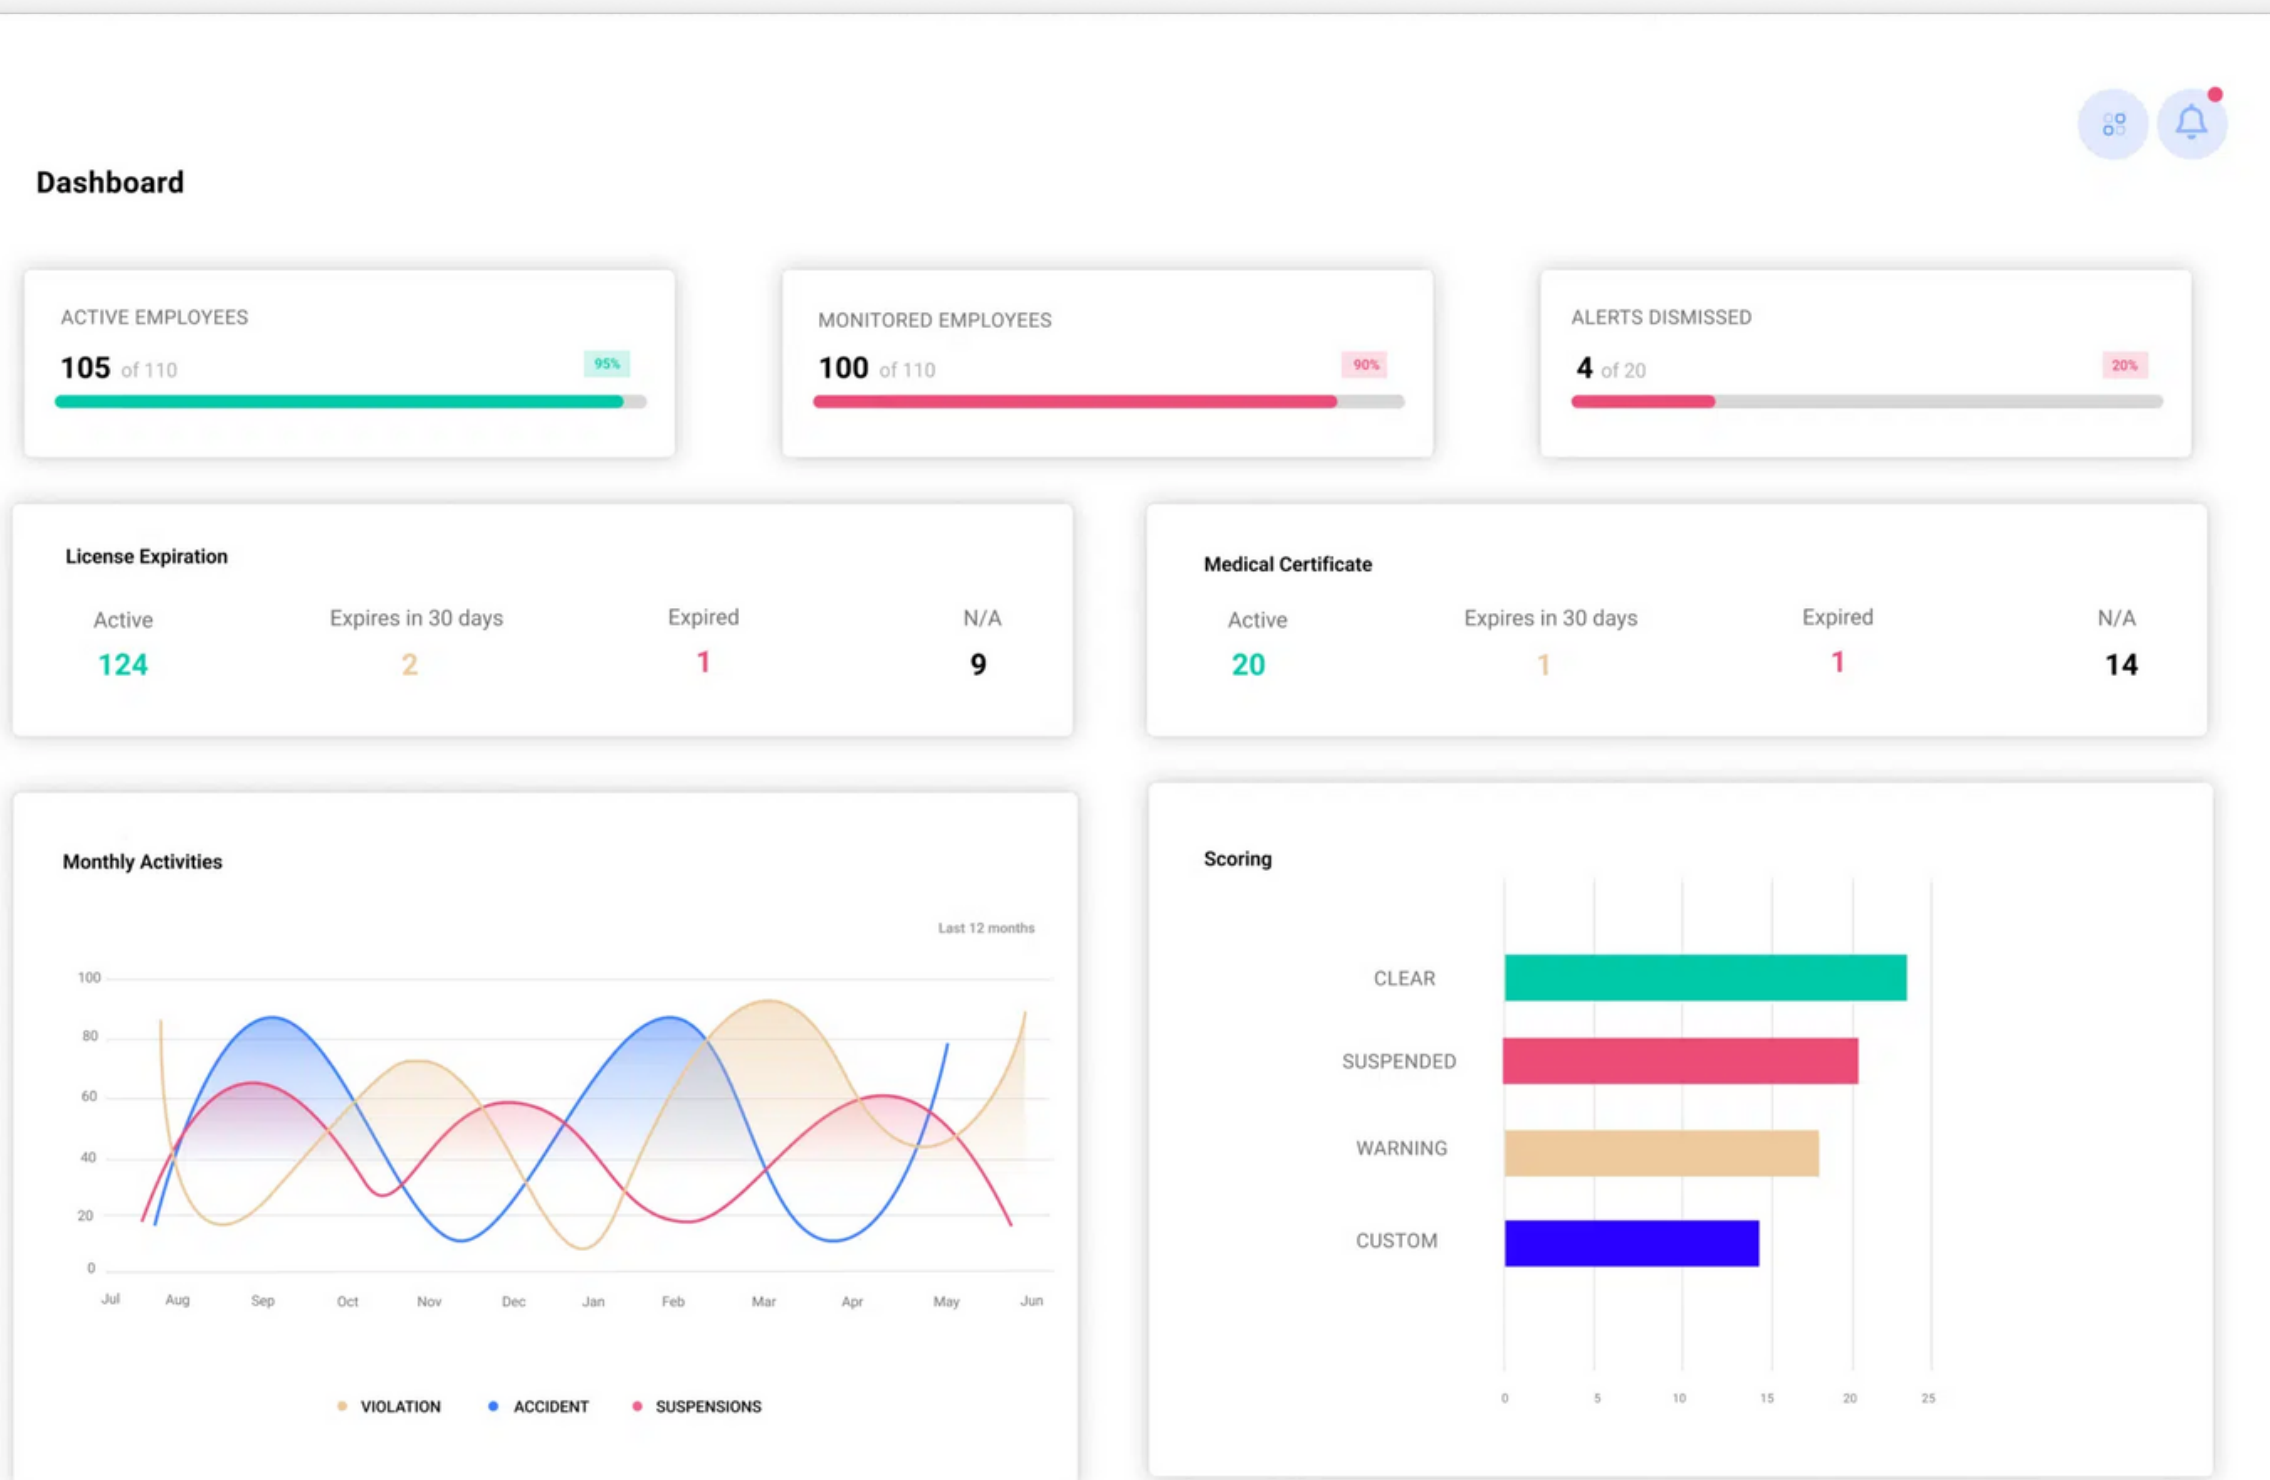

Embark Safety's MVR Monitoring systems allows employers to be on top of their employees records by receiving alerts as new violations, suspensions, DUIs, disqualifications, show up.

By monitoring employee's records continuously, companies are able to:

- ✓ Identify drivers with risky behaviors
- ✓ Simplify the driver record review
- ✓ Reduce the likelihood vehicle accidents and liabilities
- ✓ Close the gap between MVR checks
- ✓ Save money on insurance renewals

# Improve safety and compliance with MVR Monitoring

## Near real-time alerts

System sends you email alerts when new violations, suspensions, DUIs, disqualifications, etc. show up on your employees' driving records.

## MVR Scoring

MVR smart scoring automatically breaks down your drivers based on their risk level.

## License and Medical Expirations

Get reminded before licenses and medical certifications expire.

## Electronic MVR Consent

# Say goodbye to the old way of requesting driver consent

Simplify the driver record review. Easily send and receive employee authorization electronically.

- ✓ Customizable forms
- ✓ FCRA & BCFP Compliant
- ✓ Signature tracking
- ✓ Automatic archiving

The image shows a smartphone displaying the 'CONNECT' app interface. At the top, the app name 'CONNECT' is visible along with a settings icon and a notification bell. Below the header, the name 'Lopez, Mark' is displayed. A circular profile picture of a man is shown next to a blue button labeled 'Download MVR'. Underneath, the 'License Number' field contains the text 'K87654321'. A section titled 'Sign to confirm' features a digital signature of the user. At the bottom of the form is a green 'Submit' button.

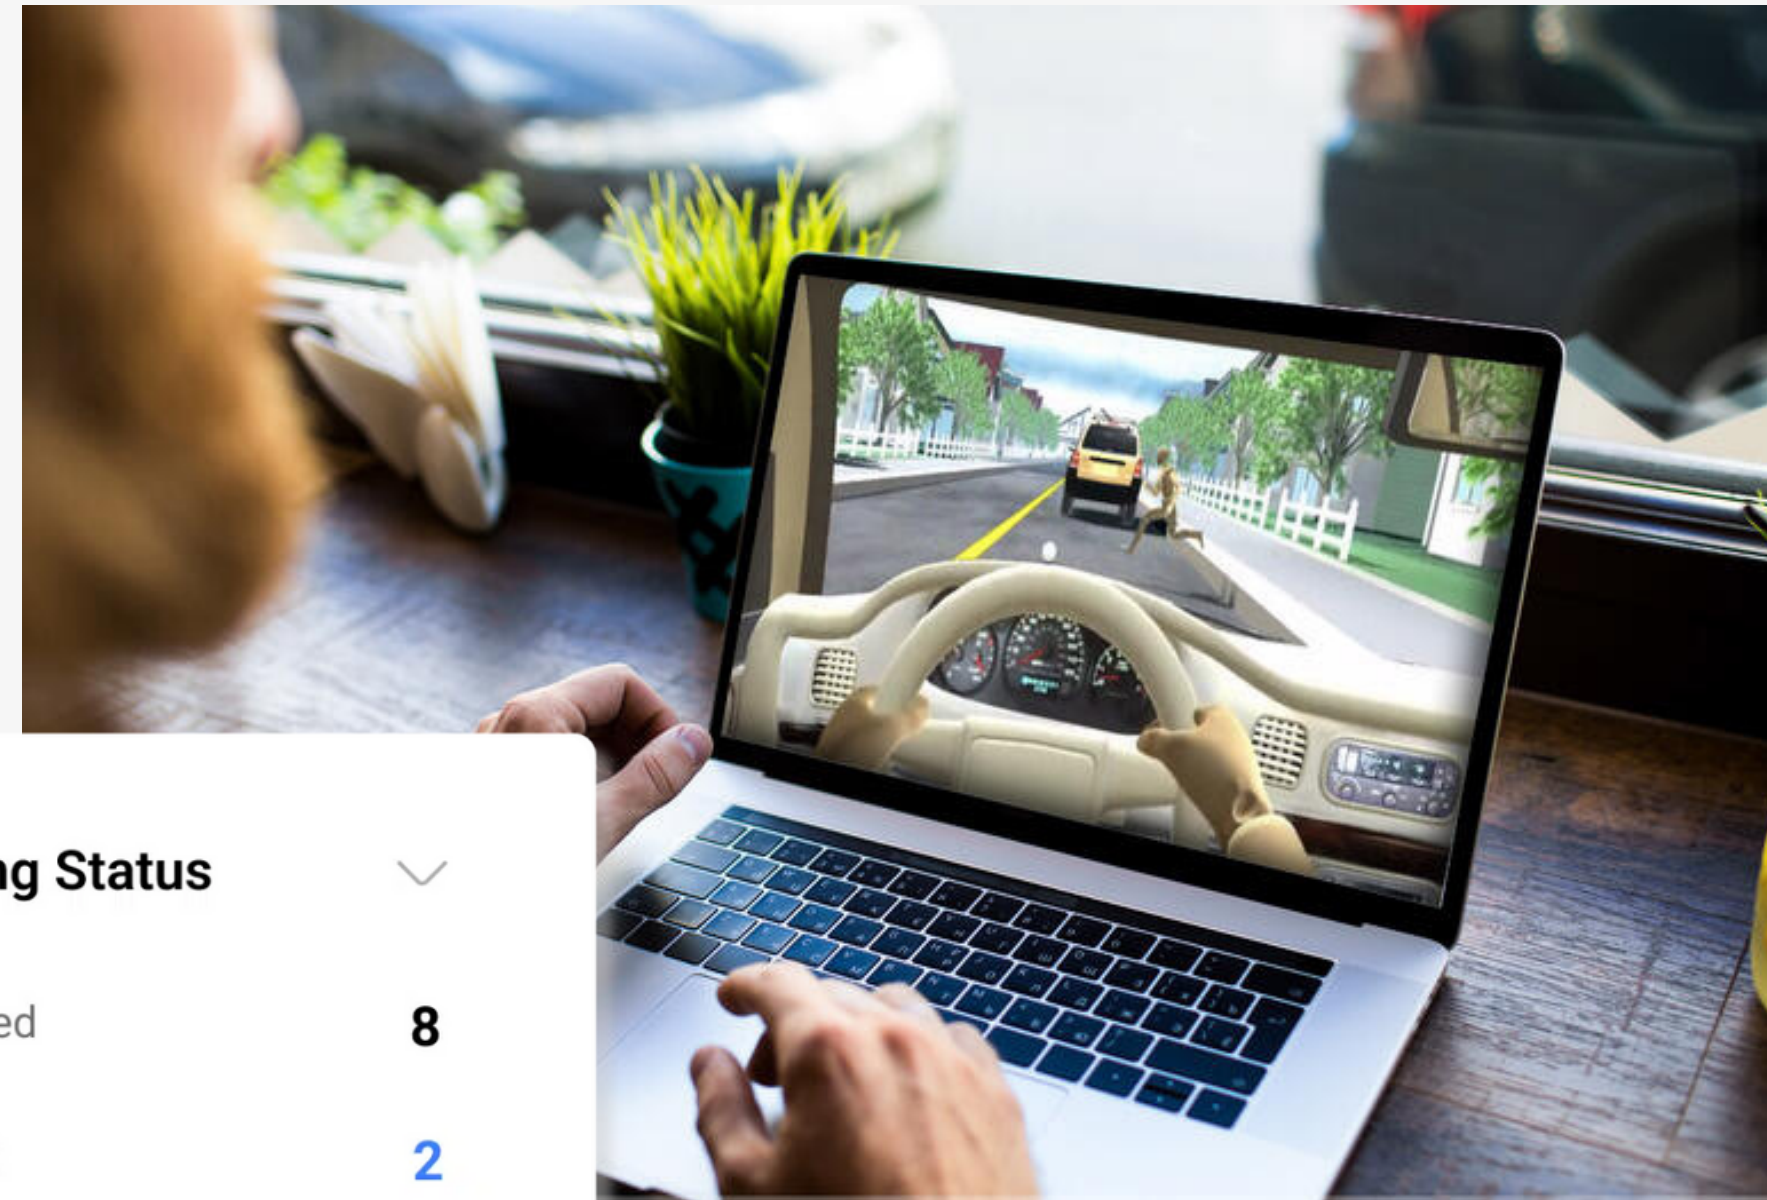

## Online Driver Training

# Target driver infractions and new violations

Our interactive sessions help your drivers anticipate, identify, and prevent road driving hazards.

- ✔ Lessons can be completed from any device
- ✔ Lessons are available in English, Spanish and French
- ✔ Customize driver lessons to target high-risk drivers, new employees, assign yearly trainings, etc.

## PSP Report

The report contains a driver's 5 year history of crash data and the last 3 years of roadside inspection data from the Motor Carrier Management System (MCMIS) database.

## CDLIS Report

CDLIS searches for any prior CDL license, current CDL, and up to three prior licenses held by the driver.

# Our customer's experience with MVR Monitoring

“We are required to maintain monitoring and reporting to be compliant. This system allows us to capture driving issues, allows us to set an annual schedule, and includes DOT medical certificates. This system is our go-to for everything and many of our other reports spin-off from this system.”

**DOT Compliance & Administration Manager**

“Embark Safety has provided invaluable customer service and resources as our organization has transitioned to a Fleet Program. The Dashboard and online functionality are easy to navigate and use.”

**Director of Commercial Excellence**

## “We always knew that **annual MVRs** was a **weak point** in our program”

The Reedy Creek Improvement District (RCID) is the immediate governing jurisdiction for the land of the Walt Disney World Resort. As a public entity, Reedy Creek Improvement Industry has always been able to access annual Motor Vehicle Records (MVRs) through the State of Florida at no cost. After a change in the state, Reedy Creek started receiving thousands of pages of reports per employee and there was no way to keep up. This change in the reporting prompted them to find MVR Monitoring to help them increase compliance and minimize liability.
