

Embark Safety's CSA Monitoring vs. FMCSA Portal

	CAPABILITY	CSA MONITORING	FMCSA PORTAL
	Inspection Alerts	Receive alerts when new inspections and violations are reported.	Manual and daily checking required.
	Ease of use	Centralized and user-friendly dashboard.	Bulky and outdated system.
	Violation Visibility	See new violations immediately across drivers and vehicles.	Manually search for reports and violations.
	Action Tracking & Notes	Add notes, document actions and mark as reviewed.	No ability to track reports and follow ups.
	Advanced Filtering	Filter by violation type, inspection level, driver, date or location.	Limited filtering options.
	Driver Risk Profile	Combines inspections, MVR violations, risk scores, DQF status, and training into a more complete driver risk profile.	Fragmented driver data across separate systems.
	Operational Efficiency	Reduced manual work and missed follow-ups.	Requires spreadsheets, paper files, and manual tracking.
	Proactive Risk Management	Helps teams act faster, address root causes and reduce repeat issues.	Reactive unless checked often.
	Connected Safety Ecosystem	Seamlessly connects with MVR Monitoring, DQF Manager and Training for a complete fleet compliance.	No integration with other safety or compliance tools.

CSA

Q Search				Report Type	Violations
				All	All
REPORT DATE	DRIVER	VEHICLE PLATE	REPORT #		
06/05/2025	Amitt, Donald	8756W	✓ MI-520147		
04/19/2025	Abdalla, Matano	MNB123456	FL-2342934		
02/28/2025	Contreras, Mari	MNF234	CO-2232234307

Stay Ahead of FMCSA Violations and Inspections with CSA Monitoring

How often do you find yourself checking the FMCSA portal for violations or inspections?

We get it, keeping up with FMCSA data take time and effort. If you're looking for a simpler way, our CSA Monitoring system has you covered. With automated alerts, real-time updates, and easy-to-read reports, you'll know exactly where your fleet stands.
